

TF

SMART BUILT

**TURNKEY DESIGN & BUILD
PRE-ENGINEERING BUILDING**

TF CO.,LTD

**We aim to be a leader in design and construction using the
Pre-Engineering Building system.**

An Integrated Solution Provider

TF Co., Ltd. is a specialist engineering company in design and construction using prefabricated steel structures (Pre-Engineering Building). The company has expert engineers with over 25 years of experience in constructing buildings using this system, with over 100 completed projects, including large warehouses, manufacturing plants, high-rise buildings, and more. The company offers comprehensive services, including site surveys, feasibility studies, and complete design and construction services from start to finish (Turnkey system).

INTRODUCTION

TF Co., Ltd. was established in 2009 with an initial registered capital of 1 million baht, which has since increased to 15 million baht. The company's headquarters and warehouse are located on Ratchaphruek Road, Nonthaburi Province

with an office and showroom space of 1,000 square meters and a warehouse space of 1,500 square meters

Additionally, there are more than 5 steel manufacturing plants located in Thailand, China, and Vietnam.

TF BUILDING SOLUTION FOR APPLICATION FIELDS

TF Building is prefabricated building, the cutting edge designed based on the customers need. It can be used in variety purposes and sizes to serve their business, whether it is a new build or refurbishment project.

Warehouse
Factory
Commercial Building
Supermarket
Office & Parking
Sport & Gym
Other

ADVANTAGE

1. Cost Saving

- 1.1 Designed by reducing the steel sections according to the forces in each member.
- 1.2 Used less manpower and machines.

2. Time Saving

- 2.1 Fabrication in factory can be run together with foundation processes.
- 2.2 Faster installation by using only bolts and nuts.
- 2.3 Quality is controlled in factory and approved before shipping.

ADVANTAGE

3. Good Quality

RAW MATERIAL CHECKING

DRILLING & CUTTING CHECKING

FIT-UP CHECKING

WELDING CHECKING

SHOT BLASTING CHECKING

PAINTING CHECKING

DESIGN SOFTWARE

Our Design of Engineering part are fully computerized, utilizing the latest software packages to enable them to produce the most economical structures in the shortest time possible. The software packages most frequently. Used are : TEKLA, STAAD PRO, AUTO CAD.

Tekla Structures is powerful and flexible software for structural steel detailers and fabricators. We can create a detailed, constructible 3D model of any steel structure from industrial and commercial buildings to stadiums and high rise buildings. Working with Tekla software is the most productive way to manage detailing and realize the benefits of the model in fabrication and erection.

DESIGN SOFTWARE

We are always conforming to international standards as UK, US, Australia. The engineers and skilled workers who are trained and have appropriate certificates to perform the jobs. All the designs and deployments are 3D modeled for checking and machining.

TEKLA STRUCTURE

TEKLA21

Cold rolled steel design

STAAD PRO – Structural analysis & design

CSI-ETAB 19 Structure analysis software

AutoCAD LT2024

DESIGN CODE

Innovation building is applying the international standard in analysis, design and manufacturing as:

1.AISC

- AMERICAN INSTITUTE OF STEEL CONSTRUCTION
Manual of Steel Construction Allowable Stress Design (ASD)

2.AISI

- AMERICAN IRON & STEEL INSTITUTE
Cold Formed Steel Design Manual

3.MBMA

- METAL BUILDINGS MANUFACTURERS ASSOCIATION
Authoritative guide for the design and manufacture of pre-engineered steel buildings

4.ASCE

- AMERICAN SOCIETY OF CIVIL ENGINEERS
Minimum Design Loads for Buildings and Other Structures

5.AWS

- AMERICAN WELDING SOCIETY
Structural Welding Code Steel Manual

6.IBC 2009

- INTERNATIONAL BUILDING CODE

RAW MATERIAL

1.STEEL STRUCTURE RAW MATERIAL

2.COLD ROLLED, CLADDING STRUCTURE MATERIAL

QUALITY CERTIFICATE

These certifications signify Quality and International Standards for organizations or products.

1. UKAS Management Systems

- Certification from the United Kingdom Accreditation Service (UKAS), the UK's primary accreditation body for international quality assurance.

2. International Accreditation Forum (IAF)

- A global organization that establishes standards and guidelines for quality management system accreditation.

3. IAS Accredited

- Certification by the International Accreditation Service (IAS), which verifies compliance with international quality management standards.

4. GICG (Global International Certification Group)

- A certification body that conducts audits and certifications for quality standards across various industries.

5. Bureau of Accreditation Vietnam

- A certification body in Vietnam that accredits quality and industry standards in the country.

MANUFACTURING PROCESS

*Capacity : Design, Manufacture & Erection of steel structures
(40,000 MT per year)*

MANUFACTURING PROCESS

EQUIPMENT PROCESSING STEEL PLATES & V ANGLES

- 1.LASER CUTTING MACHINE
